

HORTIGRO

9-4-17 + (6S) (w/w)

V.18.1.3

TAILORED SOLUTIONS, PROVEN RESULTS

A quality water-soluble fertilizer combining N, P, K, S with additional trace elements, easy to mix, easy to apply.

Directions for use:

- Always use protective clothing and equipment when handling and applying concentrate - wash afterwards.
- Ensure equipment is clean before use and all equipment is washed after use.
- Store in safe dry place and do not allow exposure to moisture.

Mixing Products:

- First add the HortiGro.
- Then mix in additives such as extra trace elements.
- Do not attempt to mix undiluted products.
- Other agrichemicals should be added last.

Application Rates:

Typical application rates vary between 25 - 150 kg/Ha depending on product, crop, soil fertility and purpose. Your representative will advise you on the appropriate application rate for your needs.

Compatibility:

Hortigro contains sulfur and will not be compatible with calcium and some nitrogen products. Stability with other products can be tested by doing a small jar mix.

The Chengeta Crop Programmes:

Are tailored to your farm's requirements and includes a combination of proven products which focuses on the animal, the pasture and the soil. The programme may include, soil and soluble fertilizers as well as our extensive range of multi-blend liquids, soil conditioners and superior range of minor elements. This combined with our monitoring service ensures optimum results for your farming dollar.

Conditions of sale:

The use of this product being beyond the control of the suppliers, no warranty expressed or implied is given by Chengeta regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not, and Chengeta accepts no responsibility whatsoever resulting from the use of this product.
