

REACTION QUALIGRASS

005

TAILORED SOLUTIONS, PROVEN RESULTS

Dairy Pasture Conditioner A complex of nutrients and minerals
for improving pasture quality.

Directions for use:

- Thoroughly stir the contents before use.
- Do not apply in bright sunlight, in the wind, or in high temperatures or at any time of rapid drying.
- Always use protective clothing and equipment when handling concentrate and spraying and wash afterwards.
- Ensure spray equipment is clean before use and all equipment is washed after use.
- Store in a safe place and do not allow prolonged exposure to high and low temperatures.

Mixing Reaction Products:

- First add the REACTION product to water.
- Then mix in additives such as extra trace elements.
- Do not attempt to mix undiluted products.
- Other agrichemicals should be added last.

Batch:

20L

200L

1000L

Application Rates:

Typical application rates vary between 5 and 20 litres per hectare depending on product, crop, soil fertility and purpose. Your representative will advise you on the appropriate application rate for your needs.

Compatibility:

REACTION products are compatible with a wide range of other agrichemicals. Stability can be checked by making a mini-mix of the agrichemical in a proportionate amount of REACTION and water. Always use the highest of any recommended water rates. The Reaction Programmes: Each Reaction Programme is tailored to your farm's requirements and includes a combination of proven products which focuses on

the animal, the pasture and the soil. The programme may include lime, soil and soluble fertilizers as well as our extensive range of multi-blend liquids, soil conditioners and superior range of minor elements. This combined with our monitoring service ensures optimum results for your farming dollar.

Conditions of sale:

The use of this product being beyond the control of the suppliers, no warranty expressed or implied is given by Agri Technovation Ltd. regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not, and Agri Technovation Ltd. accept no responsibility whatsoever resulting from the use of this product.
